June 23, 2004

Dear Consultant:

The Missouri Highways and Transportation Commission is requesting the services of a consulting engineering firm to perform the described professional services for the project included on the attached list.

If your firm would like to be considered for these consulting services, you may express your interest by responding to the appropriate office, which is indicated on the attachments. Please limit your letter of interest to no more than two pages. This letter should include a statement to indicate why your firm is interested in the project(s). It should also include any other information which might help us in the selection process, such as the persons or team you would assign to each project, the backgrounds of those persons, and other projects your company has recently completed or is now doing. We will utilize the consultant information already on file so we will not need a lengthy submittal of other general company information.

DBE firms must be certified by the Missouri Department of Transportation in order to be counted as participation towards an established DBE Goal. We encourage DBE firms to submit letters of interest as prime consultants for any projects they feel can be managed by their firm.

We request all letters be received by 4:00pm, July 7, 2004 at the appropriate office.

Sincerely,

Dave Nichols
Director of Project Development

DISTRICT OFFICES

District 4

Sabin Yanez, District Engineer
Missouri Department of Transportation
600 Northeast Colbern Road
Lee's Summit, MO 64086

District 6

Ed Hassinger, District Engineer
Missouri Department of Transportation
1590 Woodlake Drive
Chesterfield, MO 63017

1. District 4

Jackson County, Route I-470	
Job No:	J4I1673 & J4I1679
Location:	Eastbound and westbound lanes of I-470 from west of Raytown Road to Bowlin Road
Proposed Improvement:	Rehabilitate pavement and bridges within the project limits. Pavement rehabilitation options include complete removal and reconstruction of pavement and base or a 9-inch to 12-inch thick concrete or asphalt overlay. Grading and modifying existing drainage structures will be necessary, along with upgrading all guardrail and replacing signing and lighting affected by the construction. No acquisition of additional right of way is anticipated.
Length:	10.3 miles
Approximate Construction Cost:	\$45 million.
Consultant Services Required:	Surveying, preliminary design, and final roadway design plans for the proposed improvement. Bridges will be rehabilitated as needed, but bridge design will be handled by MoDOT Bridge Division.
Other Comments:	The pavement rehabilitation method will be determined prior to establishing the consultant scope of services. The consultant will prepare preliminary plans and final design plans for the proposed pavement rehabilitation projects, including plan and profile, special details, traffic control, erosion control, signing, and lighting, as required. Plans will be developed for alternate bids utilizing asphalt and concrete alternate pavement designs.

2. District 6

County, Route	
Job No:	J6I0985K
Location:	Route 64, Between 4 th and 7 th Streets
Proposed Improvement:	Seismic Retrofit and Bridge Painting
Length:	.23 Miles and a 2 year project
Approximate Construction Cost:	\$20,000,000 / \$1,000,000 for painting of bridge
Consultant Services Required:	Bridge Painting Inspection
Other Comments:	Includes Inspection of Lead Base Paint Removal

3. District 6

I-44, St. Louis City	
Job No:	J6I1629
Location:	I-44/I-55 Interchange
Proposed Improvement:	Pavement Repair, Coldmilling and Resurfacing
Length:	0.6 Miles
Approximate Construction Cost:	\$3.5 M
Consultant Services Required:	Design Plans
Other Comments:	

4. District 6

St. Louis County, Route I-44	
Job No:	J6I1713
Location:	Williams to Central Ave.
Proposed Improvement:	Pavement replacement
Length:	0.9 mile
Approximate Construction Cost:	\$5.1 million
Consultant Services Required:	Preliminary and final design
Other Comments:	

5. District 6

St. Louis County, Route 100	
Job No:	J6S1718
Location:	Big Bend to Route 67
Proposed Improvement:	Cold mill, resurface, drainage, curbing, signals
Length:	4.7 miles
Approximate Construction Cost:	\$9.4 million
Consultant Services Required:	Prelim. and final design, possible r/w plans
Other Comments:
